### ABOUT ME

I am an enthusiastic and self-motivated Android Developer with hands-on experience in building scalable and user-friendly mobile applications using Kotlin, Jetpack Compose, and Firebase. With a strong understanding of both frontend UI design and backend integration, I enjoy creating intuitive apps that solve real-world problems and deliver value to users.

### EDUCATION

#### 2025-Present

Parul University

#### Master of Computer Application

Pursuing MCA at Paul University with a focus on Web and Android development. Skilled in MERN stack, Java, and Android Jetpack. Built several full-stack projects, gaining strong expertise in scalable app architecture.

#### 2022 - 2025

Mumbai University

#### Bachelor of Science in Information Technology

I have completed a B.Sc. in Information Technology at Mumbai University, where I focused on both Web and Android Development using the MERN stack, Java, and Android Jetpack libraries. During my B.Sc. journey, I worked on multiple full-stack projects that deepened my understanding of scalable app architecture.

### EXPERIENCE

#### Aug 2024-Feb 2025

Unified Mentor Pvt Ltd

#### Full Stack Developer (Intern)

- I have experience working with REST API development and possess a basic understanding of React.js for frontend development.
- My primary focus has been on backend technologies, particularly Node.js with MongoDB and Firebase for real-time data handling and authentication.
- I developed an Invoice Management System that processes 100% real-time data, delivers accurate results, and includes built-in messaging functionality for seamless communication.

### SKILLS

- |                       |                     |                     |                     |
|-----------------------|---------------------|---------------------|---------------------|
| • MERN Stack          | • Firebase          | • Java              | • XML               |
| • Kotlin              | • Android Jetpack   | • Problem Solving   | • Git               |
| • GitHub              | • HTML              | • CSS               | • JavaScript        |
| • Android Studio      | • RESTful API       | • Agile Methodology | • Android SDK       |
| • Debugging Tools     | • MVVM Architecture | • DI (Hilt)         | • Unit & UI Testing |
| • Gradle Optimization | • UI/UX             | • Python            | • Power BI          |
